### Creating a Blog Assignment

Now that we have looked at a number of blogs your task is to **create a personal blog of your own**. You will be given 3-4 weeks of class time to create your blog, using Weebly. Remember your blog should be a personal diary or journal and reflect your ideas and feelings on topics or issues important to you. Your blog may have a particular theme, example skate boarding or fashion, but may simply be a collection of your ideas and view on topics of your choice (like a journal or diary). Your blog needs to include the following:

- A Bit of Background About the Blogger (You). Remember not to give out personal information like address, phone number, etc., as the information is being posted online.
- Create a minimum of 6 blog posts (can have more). Blog posts can include pictures and videos and need to include detail and include your opinions and feelings. You need to include supporting detail for your opinions. If you are stuck for what to write about you use some of these starters for ideas <http://www.dailyteachingtools.com/journal-writing-prompts.html>

Some reminders before you get started.

- Make your blog interesting and relevant. Blogs should both inform and entertain
- Include supporting graphics and design to make the blog visually appealing
- Try to come up with a clever or interesting name for your site and blog posts
- In order to have your ideas to show up on Weebly you will need to publish your blog each day.
- I will be reading each of your blog posts, so be sure they contain appropriate content and language
